Cost. R500 per month + R250 travel, treat and scent. X 2 = R1500

Booking required

Dogs/puppies any age

Approx 45 to 60 minutes per session.

Scenting workshop

Scenting is great as an enrichment activity. It is fun for dogs and humans.

Scent training trains dogs to detect various odours.

Scent training exercises help fulfil your dog's need for play and enrichment and can improve the relationship and teamwork between you and your dog. It builds confidence and focus and can be especially useful for dogs that are slightly anxious or reactive as it teaches them to focus on one aspect by using their nose.

- ***Please note the due to the age of the canine sessions can vary in time and duration.***
For example, a younger puppy, a session would be shorter but over a longer period as they have a shorter concentration span, compared to that of an older dog.
